

A webinar for support workers,
financial counsellors and community lawyers

Cost of living pressures and your legal rights

Tuesday 21 March 10.30 – 11.30am (AEST)

Rising interest rates and cost of living pressures are impacting household budgets across Queensland, making it challenging for many people to meet their financial obligations.

Are you supporting clients who are experiencing financial hardship or mortgage stress? Join lawyers Paul Holmes and Kristy Bloomfield from our Civil Justice Services team to learn about common credit and debt legal issues we are helping people with, free legal help available and key tips to help you assist your clients.

This session will cover:

- staying on top of finances as inflation and the cost of living increase
- financial hardship – what is it and how to access financial hardship provisions

- common legal issues in the current financial climate
- Q&A session
- further support and top tips.

We value your questions! We strongly encourage you to submit one or more questions when you register as these will help frame our session.

Please phone 07 3917 0456 or email webinars@legalaid.qld.gov.au for more information.
